

ALKA MISHRA

alkam7974@gmail.com | +91-7888683743 | LinkedIn | LeetCode | GitHub

B.Tech student specializing in Artificial Intelligence and Machine Learning, with strong expertise in Python, C++, AI/ML, and full-stack web development. Experienced in building scalable applications, solving algorithmic problems, and creating AI-driven solutions. Passionate about software engineering, emerging technologies, and collaborative development.

EDUCATION

C.V. Raman Global University, Bhubaneswar	2023 – 2027
B.Tech in Computer Science and Engineering (AI & ML)	CGPA: 8.68

SKILLS SUMMARY

- **Programming Languages:** Python, JavaScript, HTML, CSS
- **Frameworks & Technologies:** React.js, Next.js, Node.js
- **Databases:** MongoDB, MySQL, PostgreSQL, OracleDB
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
- **Tools & Platforms:** Git, GitHub, Linux, AWS, Docker

WORK EXPERIENCE

Python Trainee	Dec 2024 – Feb 2025
<i>Python Training</i>	

- Completed intensive Python training covering object-oriented programming, exception handling, collections, and file handling concepts.
- Built 5+ mini-projects and coding exercises, improving debugging and problem-solving skills.

Open-Source Contributor	May 2025 – Jun 2025
<i>GirlScript Summer of Code (GSSoC '25)</i>	

- Contributed to 3+ open-source repositories by resolving 15+ GitHub issues and submitting 10+ pull requests.
- Enhanced React frontend components, improving UI responsiveness and overall user experience.
- Collaborated with 20+ contributors using Git-based version control and agile development workflows.

PROJECTS

CareNova – AI-Powered Healthcare Platform	2025
--	------

- Created a MERN-based application enabling real-time video, audio, and chat communication between doctors and patients.
- Integrated a Generative AI-based symptom checker to analyze patient input and recommend appropriate actions.
- Implemented a digital prescription system with integrated machine learning delivery services.
- Planned scalable backend services to efficiently support concurrent users.

Evalo – Cloud-Based IDE Supporting 10+ Programming Languages	2025
---	------

- Built a cloud-based IDE supporting 10+ programming languages with real-time execution.
- Introduced features such as execution history, smart output handling, and customizable themes.
- Enabled code sharing and advanced search, enhancing usability and collaboration.
- Optimized the system to handle multiple concurrent requests efficiently

TourSafe – Smart Tourist Safety System	2025
---	------

- Enhanced a tourist safety platform featuring AI-based anomaly detection and geo-fencing capabilities.
- Integrated multilingual SOS alerts, automated e-FIR generation, and emergency response functionalities.
- Improved accessibility and safety features for travelers during emergency situations.

CERTIFICATIONS

Generative AI: The Evolution of Thoughtful Online Search	Jun 2025
Learning Microsoft 365 Copilot for Work	Jun 2025

ACHIEVEMENTS

- Secured **4th place** in the IIIT Bhubaneswar National-Level Hackathon.
- Achieved a **5-Star Badge** in Python on HackerRank.
